---

Thanks for letting me know. Have you met with Ecology yet?

The Yale team is going to be out here from May 18th to the 25th. We are meeting with Ecology on the 24th. We would be happy to get together with you and other appropriate staff if that is of interest. Best days would be May 19th in the morning, May 20th in the morning or May 25th in the morning.

Purpose would be to put faces with names, answer any questions you might have and discuss the project's path forward.

Let me know and we look forward to hearing from you on the regulatory questions before us. If the answer is we will need a Class VI permit even for the pilot wells, we will want to discuss immediately what that path forward looks like, how long it will take and what we can do together to expedite the process.

Jay

Jay,

I promise, we haven't forgotten you! We are working on our response and will be in contact with you shortly. Unfortunately, with busy schedules and all, this will likely happen near the end of this month.

Please give me a call if you have questions or would like to talk. Thank you for your patience.

Evan

Hi Jay,

Pleasure to meet you and the other project proponents. Our team will gather and determine the appropriate response.

Take care,

Evan

Jay,

Thanks for sharing this. We will likely have five people attending: program staff from regional and D.C., and Regional Counsel. Please let me know if you need anything else.

**Subject:** Proposed Agenda for Yale Carbon Sequestration Project Meeting on Thursday, April 14th

Hello all, here is a proposed agenda for our meeting on Thursday at noon.

Evan, do you know who is going to be attending the meeting from EPA?

12:00 – 12:05 — Introductions (All)

12:05 – 12:20 — Updates on the Yale Carbon TrapRock Project's Pilot Test Wells (Anastasia and Project Team)

12:20 – 12:35 — Overview of Applicable Legal/Regulatory Requirements (Jay and Meghan)

12:35 – 12:50 — Discussion

12:50 – 1:00 — Next Steps

We look forward to the meeting.

Jay
